

## AltSpace by Lyfz Co-Living

# Press Release

April 2019

---

AltSpace by Lyfz Co-Living is a Smart Coliving, Built for Digital Nomads; and is the first of its kind co-living development company in Malaysia to create a new accommodation type to address the demand of the growing number of work-travel remote workers, bridging the gap between hotel stays and apartment rentals. AltSpace is community centric, technologically wired and culturally immersed. Smart technology is integrated in each refitted development to achieve energy efficiencies and sustainability aspects align with the UN Sustainable Development Goals. Guest will also be able to book directly from its bookings app and experience seamless automated check-ins upon arrival.

AltSpace has currently identified 3 locations in Kuala Lumpur for its developments and has designed a total of 308 co-living units of which 62 units will be within the HLX Tech ecosystem to support its needs. The remaining 246 units will be spread out between the other two developments in the vicinity of Kuala Lumpur City Centre.

AltSpace is an alumnus of Y-Combinator Startup School (Nov 2018) and is a Malaysian company. Its near future plans is to expand to Japan and also the ASEAN region.
