

PRESS RELEASE

CXS International (CXS Analytics Sdn Bhd) is a ground-breaking provider of human development solutions, leveraging technology and research-based career development tools to help people actively pursue lifelong learning and build meaningful career pathways. On a national level, CXS' solutions help countries shape their workforce for the ever-changing needs of the Fourth Industrial Revolution.

A provider of big data and data analytics tools focused on education and workforce of the future, CXS offers a full suite of profiling, learning analytics and validated research tool. The vision is to connect education and employability data to provide insights that could revitalise economies and workforce for today and beyond.

CXS International is collaborating with HLX as its Strategic Talent Partner specific to its digital campus academy and Talent Exchange Platform.

The digital academy, to be housed at the HLX Innovation Exchange in the heart of Kuala Lumpur, will give learners access to a wealth of personalized learning and professional development pathways, focused on entrepreneurship, creativity and innovation.

The HLX Talent Exchange Platform will allow corporations and startups to hire the right talent for their organization, using CXS employability solutions to make hiring smarter and easier than ever before for both candidates and employers.
