

**Helios Orion Corp.**

**Press Release**

25<sup>th</sup> April 2019

## **A tripartite partnership signing in Kuala Lumpur, Malaysia with Helios Orion Corp., a Santa Clara, California based firm**

Helios Orion, Corp. is a Silicon Valley based execution-focused corporate strategy advisory firm co-founded by Dr Ken Kengatharan, a biotech entrepreneur with significant experience in R&D, corporate development and venture capital, and Mr Xavier Sanso, a senior corporate finance executive with significant experience in corporate strategy and venture capital. The founders, the board members and the founding management team that includes Mr Hatim Chraibi, an experienced medtech commercialization expert, between them have extensive experience in helping to start technology companies based in Europe, Asia and USA, technology entrepreneur education, securing capital, company growth from initial set-up to IPO, commercialization of technology as well as cross-border partnerships and M&A.

The main purpose of Helios Orion is to partner with innovative healthcare companies in key global markets to assist in their growth.

Helios Orion has deep domain-specific expertise in all areas of product development from discovery to commercialization in the global healthcare industry. The company's experienced plug and play team will work with the founders and leadership team to execute on their vision. Where necessary, working with affiliates, the company provides a comprehensive one-stop solution for all key aspects of a start-up's growth.

Helios Orion's key focus areas include drug, diagnostics, medical devices, digital therapeutics, AI, and therapeutic foods as well as cross-border ecosystem collaboration and development (including venture co-creation) in these innovation areas. This includes enabling technology ecosystems in key cities around the world to establish a connection to and a presence in Silicon Valley.

The long-term goal of Helios Orion is to set-up its own healthcare fund to assist highly innovative companies in key technology ecosystems around the world with capital, *interim* management team, and other key corporate development and commercialization activities.

Helios Orion has a presence in a number of cities worldwide. These are Santa Clara (Silicon Valley), California; Barcelona; Singapore and Hong Kong. In 2019-2020, the company plans to have a presence in Sydney, Kuala Lumpur, Taipei, and, other innovation-focused cities.
